

OWEN BARRY

DISTINCTIVELY DIFFERENT 1948

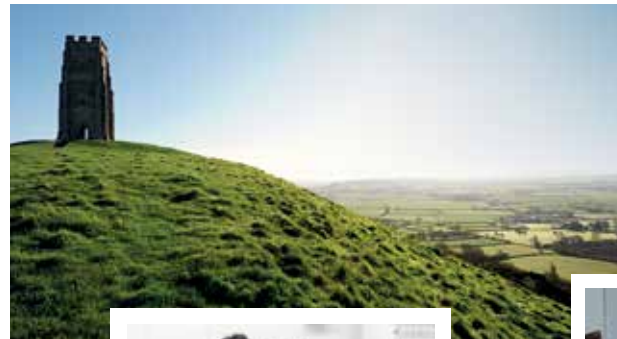

INTERIORS & ACCESSORIES 2016

Five generations of the Barry family have been involved in the tanning and manufacturing of sheepskin and leather since the 1900's. The interiors collection presented here is a reflection of our inherent knowledge and expertise. Everything is still hand cut and made to order in our traditional Somerset workshops.

Our 2016 range encompasses skins from the most beautiful Light Weight Toscana's, sumptuous Luxe Long Wools thru very on trend Swedish Curlies to glorious individual Cowhides.

All of the skins are stock supported, they are available individually or can be manufactured into a wide range of soft furnishings.

You are always welcome to visit our workshops in Street, Somerset which are regularly open for full factory tours, there you can see the interior range plus our handbag & ready to wear sheepskin collections also being made.

ICELANDIC NATURALS

Everyone is an individual – the natural colourways shown are for guidance, every skin will be totally original – for doubles and quads we will match as closely as possible. The skins reveal the climate and conditions where the domestic sheep graze – long fine wool trapping the warm air, a very lightweight pelt making them ideal for stunning interior decoration.
